

## Sam - Mechanic

Sam loves being a Mechanic and works together with his boss Keith as a team of two. Although he really enjoys messing around with cars all day, it gets very cold in winter and he needs to wrap up warm.

The job is physically demanding, but no matter what Sam is satisfied any way. It has changed a lot in the in recent years with electronics and in the future it will change with hybrid. Eventually, you get used to your skills and get quicker at fixing cars.

Sam rates being a Mechanic a 8 on a scale of 1 to 10 because he loves the job but hates the cold weather. It is very dirty as well, but despite everything Sam always goes home with a huge grin on his face.
